AVISHEK KAIT

Computer Science & Engineering Student | Competitive Programmer
Barishal, Bangladesh | info.avishekkait@gmail.com | www.avishekkait.tech
linkedin.com/in/avishekkait06 | github.com/avishekkait06 | codeforces.com/profile/avishekkait006

PROFESSIONAL SUMMARY

Computer Science and Engineering student at the University of Global Village (UGV) with a strong foundation in data structures, algorithms and object-oriented programming. Active competitive programmer on Codeforces and CodeChef, champion of the 20th UGV Intra-University Programming Contest, and participant in IUPC and South Zone programming contests. Proficient in C, C++, Java and Python. Seeking an internship or entry-level role to apply problem-solving skills to real software development.

EDUCATION

Bachelor of Science in Computer Science & Engineering Expected graduation: 2029
University of Global Village (UGV), Barishal, Bangladesh | CGPA: 3.58 / 4.00 | Currently in 3rd semester
Relevant coursework: Data Structures, Algorithm Design, Object-Oriented Programming (OOP), C Programming, C++, Java, Python

Higher Secondary Certificate (HSC), Science 2023 – 2024
Barishal City College, Barishal

Secondary School Certificate (SSC), Science 2020 – 2022
Rupatali Jagua Secondary School, Barishal

TECHNICAL SKILLS

Programming Languages: C, C++, Java, Python
Web: HTML, CSS
Computer Science: Data Structures, Algorithms, Object-Oriented Programming, Problem Solving
Libraries & Frameworks: Java Swing, C++ Standard Template Library (STL), NumPy
Databases: SQL
Tools & Technologies: Git, GitHub, VS Code, IntelliJ IDEA, Code::Blocks, Linux Command Line (Bash), Microsoft Office
Operating Systems: Linux, Windows

PROJECTS

UGV Bus Route Management System | Java, Java Swing, OOP
Java desktop application for managing university bus route information, including routes, schedules, start and end locations, distance, unit cost and total transportation cost.

- Built a Swing-based GUI to add, update and delete bus route records
- Stored route, time, starting point and destination details for each bus
- Implemented automatic total transportation cost calculation from distance and unit cost
- Displayed all bus information in a structured, easy-to-read table

UGV Student Mark and CGPA Generator | OOP
Application that takes student course marks as input and automatically calculates results and CGPA.

Calculator and Number Utility | OOP
Object-oriented calculator with additional tools for working with numbers.

Personal Portfolio Website | HTML, CSS, JavaScript
Responsive portfolio website (avishekkait.tech) presenting projects, contest results and profiles.

- Designed a dark, animated interface that works on phones and desktops
- Built an events gallery with photo viewer, a working contact form delivered by email, and live Codeforces rating data

COMPETITIVE PROGRAMMING

- **Codeforces:** peak rating 857 (handle: avishekkait006)
- **CodeChef:** peak rating 850, 1-star (handle: avishekkait06)

ACHIEVEMENTS AND CONTESTS

Champion, 20th UGV Intra-University Programming Contest (IUPC) – University of Global Village
Ranked 32nd, UGV 3rd South Zone Programming Contest 10 October 2026
Ranked 39th, PSTU IUPC 2026 (South Zone) 29 August 2026

ACTIVITIES AND LANGUAGES

- Runs the Tech Tall YouTube channel, sharing technology topics learned along the way
- **Languages:** Bangla (native), English (working proficiency), German (basic)
